

# JANSSEN PHARMACEUTICA

## JANSSEN PHARMACEUTICA SELECTS A SINGLE COMPLIANCE VENDOR FOR BOTH DOCUMENT AND PROCESS MANAGEMENT

**JANSSEN**  
PHARMACEUTICA

*"We chose QUMAS because its comprehensive compliance suite uniquely allowed us to install a single solution that we would previously have sourced from two or more vendors."*

**Bert Jacobs,**  
Director EuropeanPharma  
QA Information Management,  
at Janssen Pharmaceutica.

### About Janssen

Janssen Pharmaceutica was established in 1953 and was created not as a subsidiary of a chemical factory but solely with the aim of conducting pharmacological research. The one objective of the company has always been the continuous development of better drugs to improve the quality of life.

With more than 80 drugs to its name, Janssen Pharmaceutica is one of the most innovative pharmaceutical companies in the world, and its products have found major applications in human medicine. Based in Belgium, the company has a global leadership position in the treatment of diseases of the central nervous system, pain, gastrointestinal disorders, infections, and women's health. The company has production sites in more than a dozen countries in Europe, the Americas, and Asia-Pacific.

### Janssen's Challenges

The industry has relied on different vendors to provide content solutions and process solutions. Without exception, Janssen Pharmaceutica had come to a crossroads where the company was ready to implement a single compliance solution that would eliminate the need to have a number of point solutions that only cover one specific regulation. Janssen needed a comprehensive compliance management solution that would ensure that as the organization

continued to become more global, they would be able to maximize enterprise-wide efficiencies. Janssen Pharmaceutica selected QUMAS to provide this single compliance solution for document and process management. By selecting QUMAS, Janssen Pharmaceutica recognized that a maturing approach to compliance is required in the sector.

### QUMAS Solution

Janssen Pharmaceutica selected the QUMAS Compliance Suite as a single solution to ensure compliance across a broad range of regulatory requirements for its pharmaceutical manufacturing plants in Europe and its chemical manufacturing plants worldwide. Janssen Pharmaceutica was one of the first of the world's leading pharmaceutical companies to choose a single vendor to address both document and process management.

The QUMAS Compliance Suite is a complete compliance framework that allows firms in highly regulated industries to initiate enterprise wide compliance programs covering many regulations with a single solution. The QUMAS Compliance Suite eliminates the need for firms to have a number of point solutions that only cover one specific regulation. The QUMAS Compliance Suite provides the company with a scalable compliance framework that can be rapidly rolled out across multiple divisions.

## About QUMAS

With over a decade of experience, QUMAS is the only global compliance software company offering a complete solution to regulated industries.

Recognized as the world leader in Enterprise Risk and Compliance Management, the company is a regular winner of industry awards for innovation and excellence.

QUMAS's comprehensive suite of compliance management applications has been developed specifically for regulated industries and ensures corporate compliance with the full spectrum of global regulations, including Investment Company Act 38a-1, the USA PATRIOT Act, Sarbanes Oxley, 21 CFR Part 11 and cGxP.

QUMAS provides highly configurable applications, ready for validation and deployment within regulated environments. Based on open systems platforms, QUMAS technology integrates seamlessly with existing corporate databases, applications, operating systems and hardware from all major vendors.

The QUMAS worldwide headquarters are located in Cork, Ireland, with U.S. headquarters in Florham Park, NJ, and satellite offices throughout the United States and Europe.
